Product Overview

The Excel 600 series is a range of 19" 600mm wall mount racks designed for installation of both cabling and equipment, and is ideal for use across a range of applications including local area networking (LAN) cabling and hardware, and the housing of security and audio and visual equipment.

Each rack is designed with strength, ease of use and aesthetics in mind. Features such as quick release doors and side panels, fully adjustable front and rear profiles and above average access through the either the top or base of the rack make the product extremely flexible and easy to install cables and equipment into. The wall mount racks are available assembled or flat pack. The flat pack supplied version permits makes handling the rack onsite simple for one person. Due to the design the rack can be assembled 'on the wall' for ease.
A full range of Excel accessories are available to complete cable or equipment installation from shelving through to ventilation and power distribution units.
