## Start Sharing

### Sharing through Hyshare Pro App

**1. Download**

**Windows / macOS**
Go to Hyshare Pro web configuration page to download the Hyshare Pro App for your device.
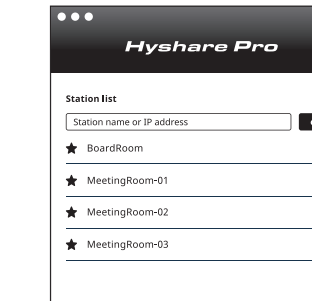

**Android**
Search for Hyshare Pro App in Google Play.

**iOS**
Search for Hyshare Pro App in App Store or cast through AirPlay.

**2. Connect**

❶ Launch the Hyshare Pro App.

❷ On the Station list, find the "Station Name" shown on the Standby Screen.

❸ Click the toggle to connect to the right Station.

ⓘ If the name does not appear on the Station list, switch your Wi-Fi to the network with the same name (SSID) as the Station name.

**3. Present**
Click play button ▶ to start screen sharing.

### Sharing through Web Browser (for Windows)

❶ Type in the Station IP in a web browser.
Station IP can be found on the Standby Screen.

❷ Click "Start" to begin sharing the screen.

ⓘ Web browser sharing is only available in Chrome and Edge browsers.

Thank you for choosing Hyshare Pro.
