

## 150m HDMI ARC Extender with CEC.

Designed specifically to manage ARC between Displays and remote Amplifiers over category cable.

- Extends HDMI ARC audio signals upto distances of 150m over single category cable.
- Connections to extend S/PDIF upto 150m, if ARC is not supported by display.
- Supports audio formats upto Dolby 5.1 and DTS 5.1
- CEC pass-through when using HDMI ARC.
- Perfect for connecting embedded display audio to remotely located audio amplifiers including Sonos AMP.
- Small form factor power supply for easy install.
- Mounting brackets included.
